•Sakeaprong, Mueng Buriram, Buriram

Interested in Web Development and System Analysis, with a passion for building practical, user-centered systems. Experienced in developing full-stack web applications using React.js, Node.js, and MySQL, along with UX/UI design using Figma. My internship at CRG strengthened my teamwork, communication, and problem-solving skills, enabling me to collaborate effectively in team environments. I am committed to continuous learning and self-improvement, and I am always eager to learn new technologies and programming languages to build secure, scalable, and high-quality solutions.

Education

Buriram Rajabhat University

Bachelor of Science Program in Computer Science

GPA. 3.05

Nai Mueng, Mueng, Buriram

2023 - Present

Buriram Technical College

High Voc. Cert. in Digital Business Technology

GPA. 3.81

Nai Mueng, Mueng, Buriram

2021 - 2022

Experience

Computer Science Project

Capstone Project

Strategic Performance Tracking System (Full-Stack Web Application)

- Responsibilities: Developed frontend dashboards, backend RESTful APIs, and JWT/RBAC authentication using React, Node.js, Express.js, Prisma ORM, MySQL, Tailwind CSS, and Chart.js.

System Analysis and Design

Term Project

Strategic Issue Implementation Monitoring System for Buriram Rajabhat University

- Conducted system analysis, designed Context Diagrams, DFD, Flowcharts, Decomposition Diagrams, and ERD, and translated functional requirements into system workflows .

Internet Application Development

Term Project

Member Management System

- Developed a RESTful API for member management using Node.js, Express.js, and MySQL, implementing CRUD functionality and database integration for efficient data management.

Mobile Application Development

Term Project

Image Upload Mobile & Web App Concept

- Designed end-to-end UX/UI workflows and interactive prototypes for both mobile and web platforms using Figma.

Central Restaurants Group Co., Ltd. (CRG)

Phaya Thai, Ratchathewi, Bangkok

Internship

Mar 7, 2022 – Sep 16, 2022

- Store Operations Management - Trainee Manager

Skills

Developer Skills: C, Python, Node.js, HTML, CSS, JavaScript ,React.js, Tailwind CSS

Database Management: SQL, MySQL ,Supabase

Design & Development Tools: Figma, VS Code, Cursor, Postman, Antigravity, Claude, Github
